## SubFinder Online

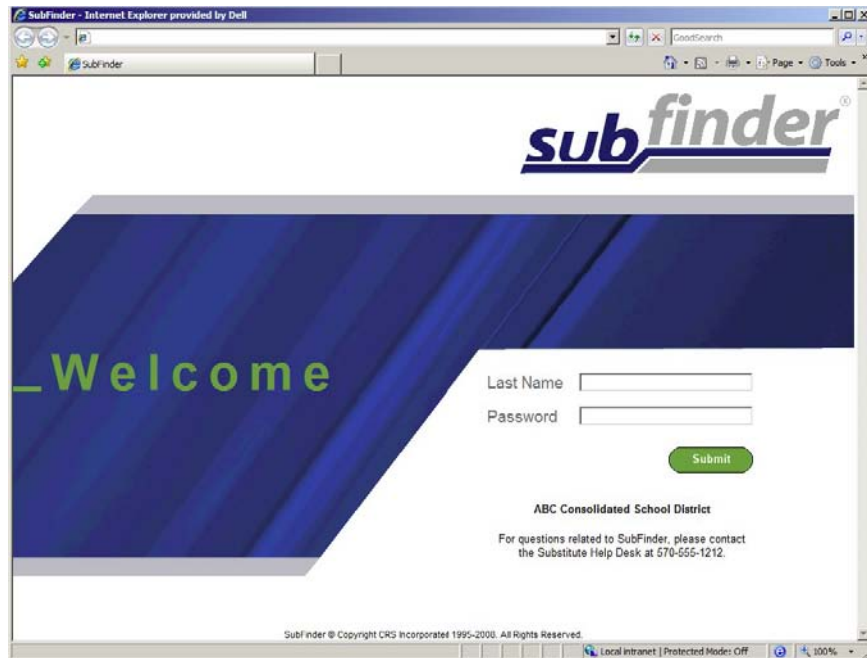

Using SubFinder online, substitutes can quickly accomplish routine tasks such as checking available jobs and reviewing current jobs. The entire workforce has easy-to-use, secure access to all of the same great features available from SubFinder via telephone, plus additional features optimized for the Internet.

### How Does It Work?

SubFinder online works in conjunction with the SubFinder system. It uses the existing database and complements the telephone operation of SubFinder. All data becomes instantly available, regardless of the method of entry.

SubFinder online is used to access SubFinder from your home or office computer, or any computer that has internet access. Simply enter the District's web address for SubFinder in your browser address line <http://www.hbuhsd.k12.ca.us/intranet.htm>, press **Enter** on the keyboard, click on **SubFinder**, click on **WebConnect** and you will be able to logon. (For ease of access, we suggest you bookmark the district's web address.)

For assistance or questions call the District Administrator at (714) 903-7000, ext. 4210.

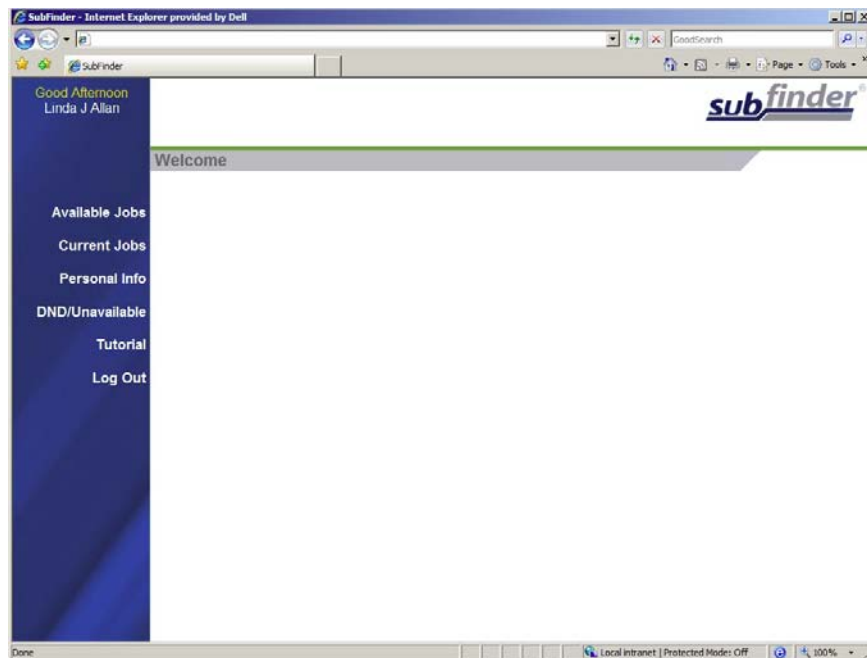

## System Access

To access SubFinder online, simply enter your last name in the **Last Name** field and your PIN in the **Password** field and click **Submit**.

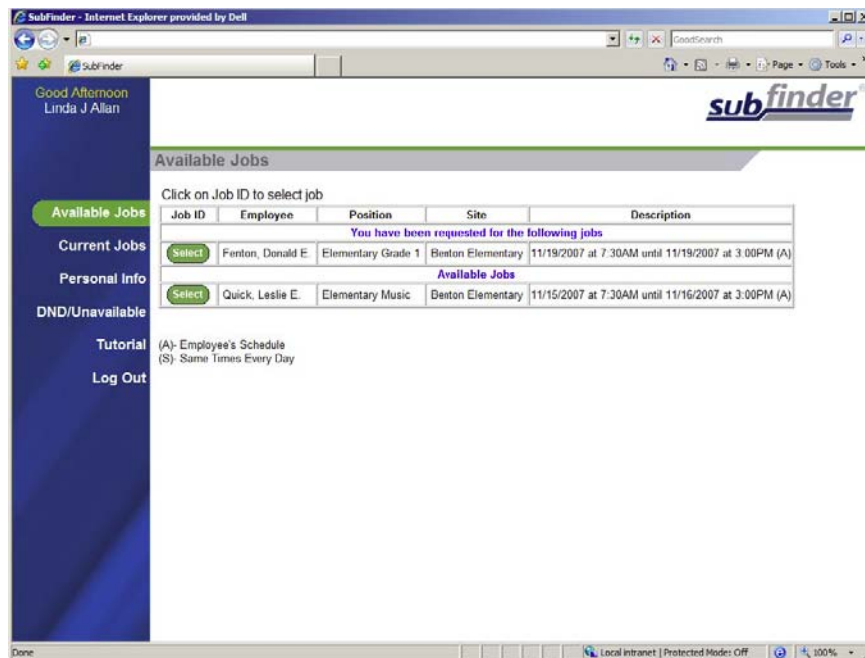

The opening screen will appear. On the left side of the screen are the buttons that give you access to various options. These include **Available Jobs**, **Current Jobs**, **Personal Info**, **DND/Unavailable**, **Tutorial**, and **Log Out**.

## Available Jobs

To view available jobs, click **Available Jobs**. SubFinder will display a list of all available jobs for which you qualify. If you have been specifically requested for one or more jobs, those jobs will appear first within the grid. To accept a job, click **Select** in the Job ID column.

Once a job has been selected, you will be notified of the amount of time you have to express interest in the job. Once the allotted time has expired, you will receive a message stating that system did not receive a response and you are able to select the job again if still available.

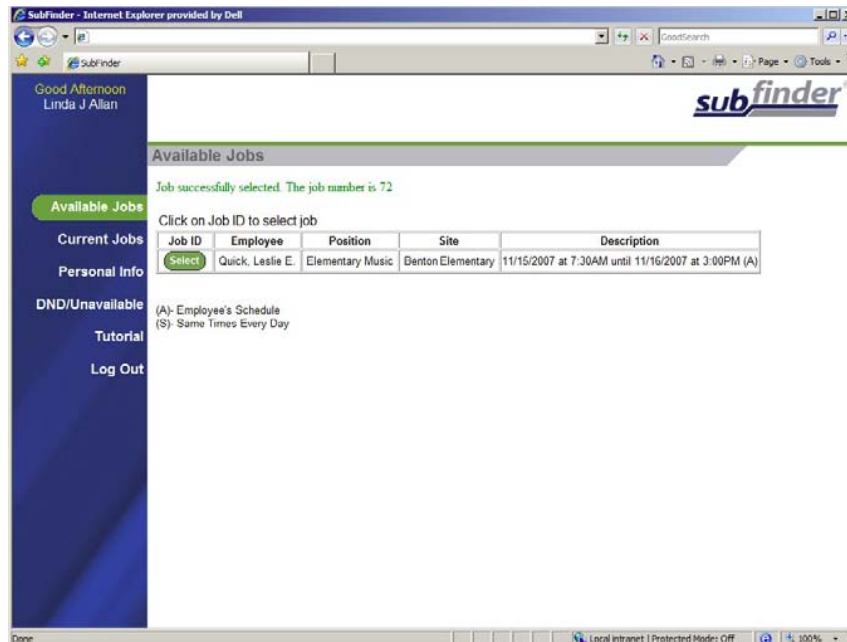

SubFinder will offer additional details related to the job. If Special Instructions were recorded, they will either be shown on this screen or a message will be displayed instructing you to call SubFinder (714 898-4105) to hear them. Site directions (if available) can be accessed by clicking the Site Directions hyperlink.

Depending on the specific job, you will be offered up to three options: **Yes**, **No**, or **Return to Available Jobs**. Simply choose the one you desire.

- **Yes:** Indicates that you are willing to fulfill this job request and will be placed in the job once the system confirms that the position is still open, your eligibility has been verified, and a confirmation message has been displayed.
- **No:** If you are requested, **No** indicates that you are not interested in this job. SubFinder will not offer this specific job to you again and will release the job to other qualified substitutes. If you have not been requested, **No** indicates that you will be returned to the current list of available jobs.
- **Return to Available Jobs:** Will return you to the current list of available jobs.

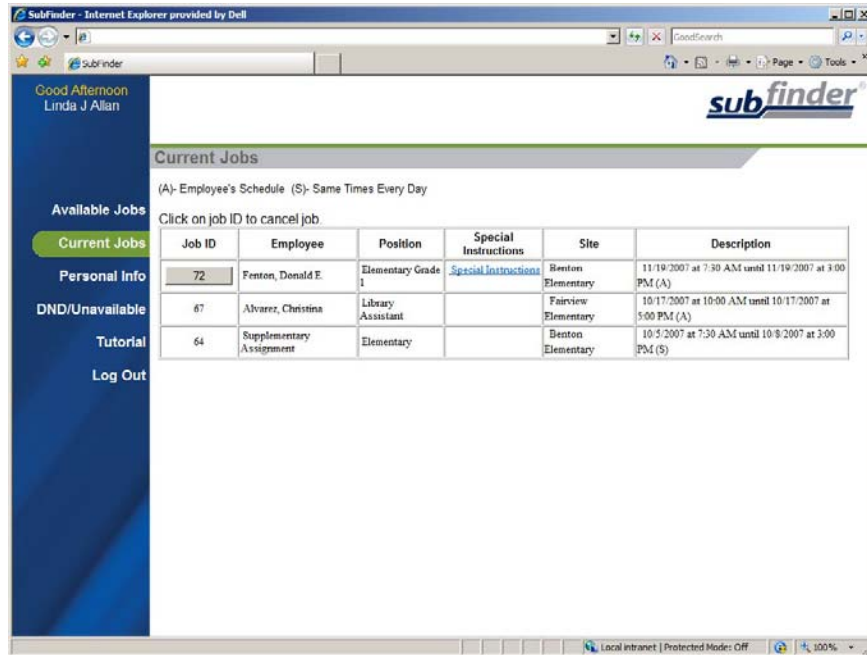

If you indicate you are willing to fulfill a job request, SubFinder will display a message indicating success, provide you with the job number, and list any remaining jobs for which you are qualified to work. Remember to write down the job number for future reference.

## Current Jobs

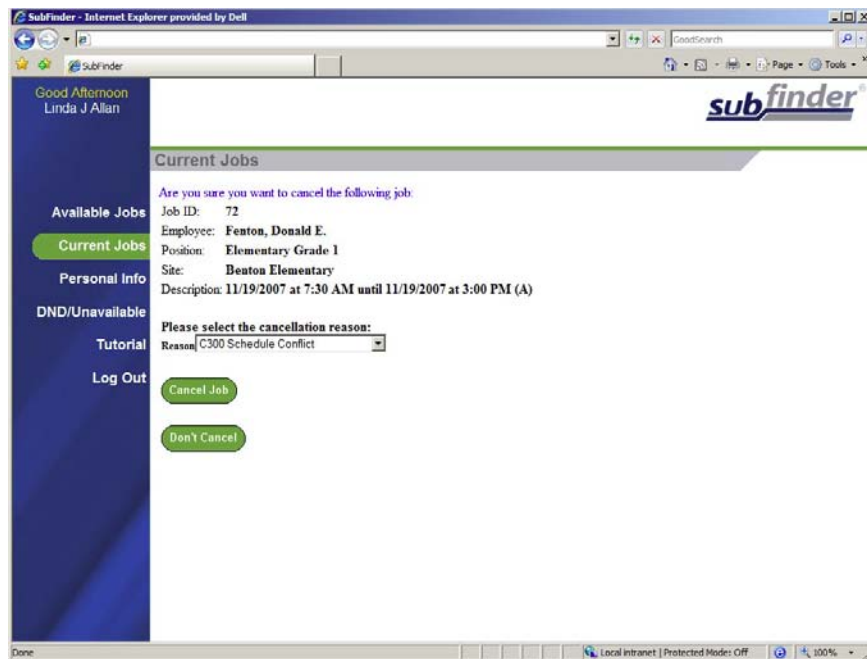

To view your current assignments, click **Current Jobs**. SubFinder will display all of your jobs in descending order based on the start date/time. Information displayed will include the Job ID, the employee for whom you will substitute for, the position, the site, and the dates and times of the job.

If Special Instructions and/or Site Directions are available for a particular job, they can be accessed by clicking the hyperlink in the appropriate column. If the absence was entered by telephone and special instructions recorded you will see a message to call SubFinder to hear the instructions. The SubFinder number is (714) 898-4105.

## Canceling a Job

If you need to cancel a future job, click the button in the Job ID column. SubFinder will display the details of the job and ask you to verify that you do wish to cancel the job. You may also be asked to provide a reason for the cancellation. To proceed, click **Cancel Job**. If you do not wish to cancel the job, click **Don't Cancel**.
